CHICKENS AND TURKEYS ARE BOTH GOING FAST.

The poultry market was active yesterday and the orders for turkeys were heavy all day. Chickens are in big demand since the duck season closed, and their price remains steady. A few spring geese and tame ducks were on the market yesterday, but they were soon disposed of raised to \$1.75 a bushel, wholesale, and

A WESTERN EMPIRE.

California's Vast Domain and Equally Vast Industrial Outlook.

California occupies on the Pacific slope a strip about two hundred miles wide, and extends in latitude from the southern line of South Carolina to the southern line of South Carolina to the southern line of Massachusetts. To make up its area from the Atlantic states requires Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia, North and South Carolina and about forty thousand square miles from New York and Pennsylvania.

Laid off on the western side of the river in the Mississippi valley it cuts off a small strip from Louisiana and takes in Arkansas, Missouri and Iowa. In the great San Joaquin valley could be placed New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island and one-half of Maine.

The state is traversed almost its en-

tire length by two mountain chains, the Sierra and the Coast range; but, while these ranges contain consider able land not suitable for home-makable land not suitable for home-making, they also give great natural parks, like the Yosemite valley, containing the grandest scenery in the world, furnish an abundance of excellent timber, and serve as great rain condensers, storing up in deep canyons the needed water to make the valleys "blossom like the rose."

Year by year the rancher has crept higher and higher up the mountains, first to the foothills, and later on in many cases to the very mountain tops, finding genial climate and a fertile soil that makes these elevations nearly as desirable for homes as are the

as desirable for homes as are the

The uplands on the Coast range, es pecially on the western slope, cooled during the summer by the ocean breezes and bathed in its fogs, make excellent grazing land, and there, as well as upon the high meadows of the Sierras, is found a typically good dairy country where "gilt-edged" butter can be made every day in the year. In those localities, where the eleva-tion does not exceed 4,000 feet lies the

real apple-producing part of California, the fruit exceeding in size and equaling in flavor the choicest of the vorld's markets.

Rapid as has been the tide of immi-

gration during the past ten years, there is yet productive land enough there is yet productive land enough left to furnish homes for a million people, and in no place in the world can an industrious, thrifty man with a small capital to begin with find a small capital to begin with find a small capital to cast his lot.

New York. Dec. 22.—Dean Frederick R. B. F. Cummings has commenced suit against Joseph A. West and Joseph Nelson for a judgment. The complaint alleges that June 22 Cummings and West entered into an agreement whereby Cummings became indebted to West in the sum of \$700, the money to be naid back Dec. 22. Good security was given for the loan.

A judgment in the sum of \$662.50 had been obtained against West by James Spencer Bateman company in Box Elder county. This is still unpaid. This was assigned to Cummings by the Bateman company Dec. 19.

The complaint further alleges that West has been absent from Utah at divers times thirty-three months, in the aggregate since the judgment was entered. At that time he was insolvent and now transacts business in the name of his wife and has no property. Joseph Nelson holds the securities for the \$700 indebtedness and Cummings is afraid that he will deliver them to West. So the court issued a restraining order to prevent this. Cummings wants a judgment in the sum of \$501.84, the difference between what he owes West and West owes him.

FOG HANGS LIKE A

Lendon. Dec. 22.—Such a complete disorganization of railroad traffic and shipping as has resulted from the present fog has been unknown for many years. A dismal pall is spread over the greater part of the kingdom, causing enormous business losses and threatening fo deprive thousands of their Christmas parcels. Statisticians estimate that the losses in London alone amount to nearly \$3.000,000. Along the coast there is a great dislocation of shipping. The White Star line steamer Cedric, which sailed from Liverpool yesterday for New York is still, at unon, forbound in the Mersy, where traffic is at a standstill. Similar conditions prevail on the Thames. A number of minor shipping mishaps have been reported.
